said was properly and legally accepted under Section 5 of the Act of 1891.

This narrows the question in the case to the construction of that section. Notice of application for a franchise is required to state that sealed bids will be received for a franchise up to a certain hour and day named therein, and also state that the franchise will be granted to the person, firm or corporation who shall make the highest cash bid therefor, and any bid may be raised not less than 10 per cent above the highest sealed bid, and the franchise finally struck off, sold and granted to the highest bidder.

"Section 5 also provides that the successful bidder shall deposit with said governing body, or such person as it may direct, the full amount of his or its bid within twenty-four hours thereafter, and in case he or it shall fail to do so, then said franchise or privilege shall be granted to the next highest bidder therefor. We italicize the pivotal words. To what do they refer? To bids already made, as tendered by the appellants, or to bid or bids to be made, as contended by the appellant?

More obviously the former. They express the relation between the bids in existence, those already made and pending before the Council in pursuance of its notice. It is only in comparison with the next highest that those words have significance.

"But this construction, it is said, permits fraud, which the bill alleges was practiced upon the City Council. We cannot say the argument is without force, but that fraud might be attempted may have been considered and weighed by the Legislature. It may have been thought in any plan of competition which could be devised there would be danger of illegal combinations, and that the safeguard against them must be the vigilance of municipal officers, and, maybe, that of competing interests. But be this as it may, the defects of the statute cannot control its plain letter.

Obviously, to give them such effect would be to amend the statute, not to interpret it. And we think Section 5 is plain and was intended to express the intent of the alternative of a bid may fail to fulfill the terms and conditions of such franchise, and also provides that if such bond is not filed the award of such franchise shall be set aside, and the same may be offered to the next lowest bidder, or again be offered for sale, in the discretion of the governing body. In other words, when there is to be further competition, it is explicitly provided for.

"It follows that the appellant's bid was not the next highest to that of Murray, and the order of the Council selling and granting the appellant the franchise was void, and the decree of the Circuit Court dismissing the suit is affirmed."

ROOT ARRIVES ON SCENE.

[BY THE ASSOCIATED PRESS—A.M.]

ST. PAUL, April 11.—Elihu Root, former Secretary of War, arrived here today to take part in the argument before the United States Court for the District of Minnesota, tomorrow, as to whether the petition on the part of the Harriman interests for leave to intervene in the settlement of the Northern Securities Company's affairs shall be denied or granted. Soon after his arrival, he conferred with J. J. Hill and others.

The first question for consideration tomorrow will be whether Messrs. Harriman and Pierrepont will be permitted to file their petition. It is stated by attorneys that the reversal of Judge Loeffchen by the Supreme Court will compel the defendants to pay all costs incurred by the State since the case was removed to the Federal Court.

ONE HEARING POSTPONED.

[BY THE ASSOCIATED PRESS—A.M.]

NEW YORK, April 11.—The hearing in the suit of the Continental Securities Company against the Northern Securities Company, which was to have come up in Jersey City today, has been set for April 18. The case is an application for an injunction against the announced method of distributing the stock held by the Northern Securities Company.

NORTHERN SECURITIES MERGE.

STATE COURTS IN CHARGE.

[BY THE ASSOCIATED PRESS—A.M.]

WASHINGTON, April 11.—The United States Supreme Court today decided the case of the State of Minnesota vs. the Northern Securities Company and the Northern Pacific and Great Northern companies, involving the invalidity of the merger of the two railroad companies, holding that it was without jurisdiction, and reversing the opinion of the court below. Justice Harlan, who delivered the opinion, said that the Circuit Court should not have entertained jurisdiction in the case, the effect being that the Postmaster-General was sustained by the final decision, as rendered today.

FLOODS IN CANADA.

No Danger in Montreal, but in Far West Residents Have to Leave Home in Boats.

[BY THE ASSOCIATED PRESS—A.M.]

MONTRÉAL, April 11.—The flood situation in this city and vicinity remains unchanged. There is no danger at present for the city proper, the water being lower than yesterday and six feet below the top of the permanent dyke. The only time to be feared is a heavy, warm rain.

LEAVE HOME IN BOATS.

[BY THE ASSOCIATED PRESS—A.M.]

OXFORD (N. Y. T.), April 11.—The St. Lawrence River, the highest known in years, has swept away. Several families had to leave their homes in boats.

RIVER RISING RAPIDLY.

[BY THE ASSOCIATED PRESS—A.M.]

WINNIPEG (Manitoba), April 11.—The Red and Assinibine rivers are rising rapidly, and residents on both sides of the river are preparing for floods.

FLOOD AT WINNIPEG.

[BY THE ASSOCIATED PRESS—A.M.]

ST. PAUL, April 11.—A special to the Pioneer Press from Winnipeg says:

"At midnight flood water from the Red River is flowing down Main street, and the bar of the Winnipeg Electric Railway company has been cut by a stone embankment. The water is rising rapidly, and is endangering the bridge. The Assinibine River is also rising rapidly. Five bridges have been washed away at Ox Bow, as well as a number of houses along the river bank. Portage, St. Paul, Selkirk, Emerson, Brandon report much damage. Telegraph service to the West was paralyzed.

In delivering the opinion of the court, Justice Harlan cited the fact bearing upon the origin and history of the case, saying that originally the suit was instituted by the State in its own court, but that before an opinion could be reached there, it was, on petition of the Securities Company, transferred to the Circuit Court for the District of Minnesota, in which court it was dismissed. Much controversy over the right to remove the case to the Federal Courts, and after hearing the case argued once, the Supreme Court ordered a second hearing on that point.

Justice Harlan called attention to the fact that the proceeding was for the purpose of enforcing both the State laws and the Federal Anti-Trust Act, saying that the Circuit Court could not have taken jurisdiction if only the State laws had been involved. Taking up the Federal law and analyzing its provisions, he said it was clear that the case did not belong to any of the classes provided for by it. The contention that the case involved proprietary interests of the State was not allowed to influence the opinion.

The court also refused to hold that Minnesota's dignified right as a State would be violated, under Article IV, of the view of the Federal Court, by permitting the stock of corporations of that State to be held by an outside corporation like the Northern Securities Company. Justice Harlan said the court did not think that the ar-

gument had any bearing whatever on the question.

He said, in conclusion: "For the reasons stated, we are of the opinion that the suit does not, to use the words of the Act of 1875, really and substantially involve a dispute on a controversy within the jurisdiction of the Circuit Court for the purpose of a final decree. That being the case, the Circuit Court, following the mandate of the statute, should not have proceeded therein, but should have remanded the case to the State court.

The decree of the Circuit Court is reversed, and the case is sent back with directions that it be remanded to the State court.

The opinion of the court was unanimous.

HILL SEES A SCHEME.

[BY DIRECT WIRE TO THE TIMES.]

ST. PAUL (Minn.), April 11.—[Exclusive Dispatch.] President J. J. Hill declared today that behind the Harriman petition to intervene in the Securities case is a scheme of far wider significance than appears on its surface. He said:

"Underlying the petition to be heard tomorrow in the United States Circuit Court is a sharply-defined plan to bottle up the Great Northern, force a sale and divide the Northern transcontinental lines between new interests."

"The scheme of division is simply this, that the Union Pacific wants the Burlington, the St. Paul is going to take over the Northern Pacific, and the Northwestern, if the petition succeeds, will take the chance of getting the Great Northern. If the Harriman suit wins, I have already said the Great Northern will sell out. We will retire from the struggle and leave the Northwest to fight its own battles."

DECISION AGAINST BEAVERS.

[BY THE ASSOCIATED PRESS—A.M.]

WASHINGTON, April 11.—The United States Supreme Court today decided the New York case against George W. Beavers, late chief of the Salary and Allowances Division of the Postoffice Department. It was an appeal from a decision by the Circuit Court for the Southern District of New York, refusing to grant a writ of habeas corpus to the grotesque of the franchises shall file a bond to fulfill the terms and conditions of such franchise, and also provides that if such bond is not filed the award of such franchise shall be set aside, and the same may be offered to the next lowest bidder, or again be offered for sale, in the discretion of the governing body. CLEARS PHILADELPHIA MYSTERY.

PHILADELPHIA, April 11.—The mystery
surrounding the murder of John Thomas,
the aged night watchman of the
University of Pennsylvania, has been
cleared up today by the arrest and confession
of Lawrence Gibson, alias John Oakley,
a negro utility man at Houston Hall. Gibson, an
old negro, is his pic-
ture. The watchman, he says, mistook him
for a thief and attacked him. In the
struggle, he easily killed the old man. Gibson, whose complexion is
so light that he easily represents himself as
a white man, misrepresented himself as
a student at the university, and married
a white woman three weeks ago. When the truth was dis-
covered, he was discharged from Houston Hall.

Robert Mather, first vice-president
of the Standard Oil Co., who was asked about
the settlement, said: "It is true that I am not
further than that I am not liberty to talk."

OVER LUCIN CUT OFF.

FIRST TRAIN REACHES OGDEN.

[BY DIRECT WIRE TO THE TIMES.]

RENO, April 11.—[Exclusive Dispatch.] The first passenger train to
make the trip over the new Lucin cut-off
arrived today, making the trip, a distance of 165 miles, in two
hours and thirty minutes.

The trip from Lucin was made without
incident. The train stopped twice
for water and dinner. The speed
is in perfect condition, and shows
signs of saving, as was reported
several weeks ago. Henceforth, all trains
will go over the new line, saving a distance
of forty-seven miles, and making
away with sharp and dangerous curves
and numerous grades.

EAST RENO'S BOOM.

[BY DIRECT WIRE TO THE TIMES.]

RENO, April 11.—[Exclusive Dispatch.] The Southern Pacific is putting
every carpenter, brick mason and laborer available to work at East Reno
for the purpose of finishing work that
has been in progress there the last year.
It was given out today that the company
intends to establish a division at
that point May 1. This will cut out
out westward and connect with the
new line.

The company has spent
\$200,000 on work at the new town.
Fifteen hundred men will be
employed.

RAILROAD PRESIDENTS.

WILL TACKLE GRAIN RATE.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, April 11.—[Exclusive Dispatch.] The World says that a
meeting of railroad presidents will be
held within a few days for the purpose
of bringing to an end, if possible, the
grain rate war between the eastern
and western railroads.

CHRISTIANITY IN BUSINESS.

Printed Comparisons Made by Dr. Morgan.

London Divine's Last Service a Climax.

Fund Subscribed for the New Y.M.C.A. Building.

Mr. Dr. G. Campbell Morgan said good-bye to Los Angeles yesterday afternoon, and in a manner that left an impression upon the hearts of the throng gathered to the limit. Hazard's Pavilion was his scene of blessing; with him go the benediction of thousands who have been enriched spiritually. Before leaving there was given to Dr. Morgan the privilege of attaining the subscription to the proposed structure for the housing of the local Y.M.C.A. The opportunity came at the noon hour yesterday as Dr. Morgan sat at luncheon in the Westin Inn as the guest of Mrs. Clark. There were present fifteen other representative business men, at the public meeting that followed the luncheon was to be tender the assurance of the Y.M.C.A. the subject of the new building was naturally under discussion. Dr. Morgan took occasion to emphasize his thought as to the environment given young men. He regards this as a city's asset. Before he was served he had not only impressed his friends with the force of his argument, but instead of a \$200,000 donation it is quite likely \$500,000 will be levied. Before leaving the luncheon the friends had subscribed \$50,000 to the cause, and later Dr. Morgan said in all \$25,000 more in sight.

In so doing, leaving not only spiritual but temporal benefits for those whom he has ministered. The meeting yesterday afternoon was an uplift to the Y.M.C.A. The desire was to do as to the utility of the work carried on by the association. To the leaving thousands the term "a Christian man" has now a bigger meaning than ever before. Remarkable as has been Dr. Morgan's every effort such an address or sermon has never been heard in the Y.M.C.A. Yesterday the speaker was triumphant in his delivery of a speech and positive assurance time to time inspiring almost all who drove home the truth with clarity yet with a charming simplicity that has characterized his every utterance.

"The necessity of housing the Los Angeles Y.M.C.A." was Dr. Morgan's theme. This age is peculiarly utilitarian, said the speaker, "with such a reason as is suggested by my brother, it is well to carry on the work of the Y.M.C.A. a work that is full-rounded Christian work. In country at one time when I was looking for a job the first question asked now is, 'Can you get along with the people of your institutions? An instinct of the age does not contribute to the welfare of the age is doomed. There is no room for the effete."

Leaving that the Y.M.C.A. is fulfilling its mission there can be no question as to its utility. The only thought is how to make it more effective. What is a Christian man? And what must be his contribution to his young generation?" My answer is, he is a man who is first Christocentric, for he has made Christ the center of his life; again he is a man who is living consecrated, one who works for God and God and who is thoroughly in earnest; he ascertains the will of God that he may do it. As man before his Maker there are the physicals. A little below the center are the emotions, the intelligence and at the bottom of all the will. When a man becomes a Christian the cross has been born in him that inner circle, the will, is extended outward, dominating intelligence and emotion and finally touching the physical, bringing all things to the will of God. Then comes ideas, power and expression made manifest in the individual. A man stands at the very center of all, for Christ Himself is the center. How often in scripture the term "In the midst" is used in referring to Christ. To me it is suggested that we ask, what is this man's place in business? First of all he is diligent and always mindful of other fellow's interests, a man that is not Christ-centered, a man that does not have Christianity in his business, I do not mean one who puts his business letters and sand bags in a man that plays a game. I have referred to the man who puts his business, his Christianity and labeling it. You say "I know this man" who does not in business to his professions. I say "he is not a Christian" such a Christian, I mean the teacher of Christ, to qualify the teaching of Christ, God immediately impeaches a man and kind for laying claim to be a Christian.

The truth of the Christian man is also true of the Christian in politics. In literature and art, in science, in all fields of life, the Christian will be tolerated; all else will be rejected. The same thought is prevalent in the selection of amusements. The successful man takes his amusements from whatever is in the way of real recreation he can find; the atheist is rejected. The real Christian is both practical and illuminating. I have no words with people who say they are the world. If they are let them from the earth. Such people, to mix with and influence the world, is a sin of the half of the world.

"I was a lover of coffee," says a New York man. "I seemed to me breakfast was nothing without it, but I noticed an hour or so after breakfast a dull, stupid feeling came over me, accompanied frequently by nausea.

"Thinking perhaps it was caused by coffee I wanted to make sure of it, so I gave up the use of coffee and drank Postum in its place. My old trouble disappeared and I learned to look forward to my Postum with as much eagerness as I used to look to coffee and instead of being bad in its effect, Postum is very healthy and I feel 'it as a lord' right along. Name given by Postum Co., Battle Creek, Mich."

There's a reason why Postum helps toward fame and fortune when used in place of coffee, and drug-drink.

These let me ask, what is this man's place in business? First of all he is a man who is first Christocentric, for he has made Christ the center of his life; again he is a man who is living consecrated, one who works for God and God and who is thoroughly in earnest; he ascertains the will of God that he may do it. As man before his Maker there are the physicals. A little below the center are the emotions, the intelligence and at the bottom of all the will. When a man becomes a Christian the cross has been born in him that inner circle, the will, is extended outward, dominating intelligence and emotion and finally touching the physical, bringing all things to the will of God. Then comes ideas, power and expression made manifest in the individual. A man stands at the very center of all, for Christ Himself is the center. How often in scripture the term "In the midst" is used in referring to Christ. To me it is suggested that we ask, what is this man's place in business?

THE CITY IN BRIEF.

NEWS AND BUSINESS.

Temple Union Event.

At the monthly meeting of Temple Union at Emanu-El Synagogue this evening Miss Mary Foy will speak and there will be other literary and musical features.

Gasoline Exploded.

The explosion of a quantity of gasoline in a workshop owned by C. Stamps at No. 108 S. Bunker Hill avenue at 8:30 o'clock last night, ignited the building and caused a lively blaze, with a loss of about \$50.

Billiard Room Fire.

The explosion of a gasoline stove in a billiard room at No. 2323 West Pico street, conducted by Eugene Lapp, caused a fire at 5:45 o'clock yesterday afternoon, for which a telephone alarm was sent in. The flames were extinguished before the arrival of the firemen, and the fire will not exceed \$50.

Olive-street Child Study.

"The Juvenile Court" was the subject discussed at the meeting of the Olive Street Child Study Circle yesterday afternoon. Among those who spoke were Superintendent A. F. May, Capt. Dodd, chief probation officer of the Juvenile Court, and Mrs. W. J. Washburn.

For Pastor's Wife.

A reception was held last evening at the residence of Rev. Dr. D. Bassett of the Friends' Church in honor of Mrs. Bassett's birthday. The house was handsomely decorated with similes, roses and lilies. A large number of members of the church were in attendance, and an evening of pleasure was enjoyed by all.

Scenes in Los Angeles.

An attractive brochure has just been issued by M. Reid of No. 244 North High street. It is a collection of photographic views of Los Angeles' streets and residences, with a few characteristic suburban scenes. To the citizen it mirrors life-like fidelity; familiar scenes, while to the stranger it gives a good idea of the solidity of our business blocks and the beauty of our homes.

Boys Play Burglars.

The residence of Stephen Range on Cheney street was entered during his absence by four small boys, who in their search for valuables, emptied trunks, dressers and closets on the floor, wrecked the furniture and otherwise ruined the place. They could find no money and contented themselves with the theft of a five revolver. The boys were seen leaving the place and the identity of two of them is known, but the police have been as yet unable to locate them.

Was Not Robbed.

Michael Kane reported to the detectives Sunday that he had been burglarized while staying in a cheap hotel on Central avenue. He stated that his pockets had been cut open by persons unknown to him. Yesterday while the officers were investigating they came upon Kane in a saloon. He had been away. When asked about the robbery he laughingly stated that he had found his money in another pocket, but did not consider it worth while to notify the officers.

Says He Robbed Him.

Jesus Talamantes was pointed out to Patrolman Noces yesterday by Immencio Chaves, who told the officer that the night before he had been to the same place. High-point and robbing of several dollars. Talamantes was placed under arrest, booked on suspicion and the matter was reported to the detectives. Last night it was stated by the officers that there had been no robbery, but only a "mugging." Chaves, however, is in the face. Chaves, however, insisted to Eccles that he had been given the "strong arm" knocked down and relieved of all his money, and he further expressed a willingness to swear to a compact with the police. Talamantes, however, of whom he declared, had been endeavoring to placate him.

Old Books.

Paul F. Mohr, at his beautiful home at San Dimas, has a large and interesting collection of rare and expensive books—some of them original manuscripts—pictures, engravings, porcelain ware, bric-a-brac and curios, that he has gathered during his travels around the world. Among the books is a set which he picked up at a second-hand book store at Washington. It is the history of the reign of Louis XIII, in French, printed in Amsterdam, Holland, in 1700. There are 12 volumes, bound in white vellum. It is especially interesting from the fact that on the inside cover of each volume in the back plate of Harrison Gray Otis, who was born many years after the book was published, it must, consequently, have come into his hands. He was a Senator of the United States in 1820, when the Missouri Compromise bill was before that body.

Hearst's "Busted Boom."

NEW YORK, April 11.—Executive Dispatch. The bustle Washingtonians especially like the prevailing view in political circles today was that the back of the Hearst boom has been broken.

Detailed results from Indiana especially, strengthen this view. The Taggart organization there swept the field against Hearst. The victory of the state capital, which won the chief bastion of both sides, will have great influence throughout the State. From other states, reports indicate that the Hearst movement has run its course.

It is nothing you can buy in this city that costs so little in proportion to what we cost so much in The Times.

RAID UPON "HOLY JUMPS."

Kohler Street Invades the
Dervishes' Temple.

Howls of Antagonists Drive
Slumber Far Away.

Both Sides Appeal to Police.
Bedlam Let Loose.

The fight between Kohler-street resi-
dents and the "Hoosier jumpers" has
reached an acute stage. The residents
want the "Full Gospel Meetings" now
being conducted by "Reverend" Ellsworth
and Davis, stopped, while the
"jumpers" are asking the police to
protect them from the jeers and inter-
ference of their neighbors.

A war of extermination is on be-
tween the two factions and while the
fight is waxing furious there's very
little sleep in that neighborhood. The
scouts of those outside and the yeis of
the religious enthusiasts inside form a
combination of noises that would
make a Fourth of July resemble a fu-
neral. A block of boiler factories could
not begin to get into the Kohler-street
cauldron just now.

Yesterday H. M. Crowell for the re-
sidents applied to the Prosecuting At-
torney for a warrant for the arrest
of the members of "God's Living
Family" on the grounds that they
were disturbing the peace and main-
taining a nuisance. Bebe referred
to Capt. Auble, as he thought
some direct evidence should be pre-
sented before the arrests were issued.
Capt. Auble advised Crowell and other
residents who have been kicking so
vigorously about the meetings, to visit
the place and have a talk with the al-
leged revivalists and ask them to con-

ment, and then bedlam broke loose
again.

Worn in flesh, but unbroke in spirit,
the jumpers and residents continued
the test of endurance until they had
kept everybody awake within a radius
of half a mile. Then they decided to
call the bout a draw and go home to
prepare for an all-night session to-
night.

The people who live in this neighbor-
hood are not millionaires and they are
compelled to get up about 5 o'clock
in the morning to earn their daily
livings. The "Hoosier jumpers" who formerly
went to school have been withdrawn
in order that they may sleep in the
daytime and be on hand at night to
help out the older ones who find the
strain somewhat wearing. The resi-
dents say they will have fresh rein-
forcements tomorrow and they hope to
earn a decision, even if they are un-
able to knock out their adversaries.

Christie and Taylor Pulled on
New Charges.

Several Other Arrests Are
Sure to Follow.

Fresh Starter in Continental
Loan Scandal.

Tired to death of the pelting ques-
tions put to him in the sweat box, E.
F. Masterson has "squealed" on the
smooth young men, Christie and Tay-
lor, who helped him bunt the Conti-
nental Building and Loan Association
out of \$80,000.

As a result of his confession, E. J.
Christie and A. J. Taylor were both
arrested yesterday afternoon. The offi-
cers were afraid they would skip as
Masterson skipped to Germany, and
arrested them so hurriedly that there
was no time to make out warrants.

Although up to this date the pair
have been as cool as a lady with
jorgnettes, they almost collapsed in
craven fright yesterday. The ar-
rested, at this time, when they are
already out on bail on the charge, is
painfully significant. They know well
enough what it portends.

There are other nameless ones shiv-
ering with apprehension. It is hinted
that Masterson's confession implicated
many more than these two men, and
arrests of an entire gang are "cooking."
The names have not been given out.

The part of these anonymous
ones in the big game was to
imperil the fictitious borrowers of
the corporation's money.

A Pinkerton detective, together with
the officers of the law, is working up
cases against them.

It is said that Masterson has put the
District Attorney in the way of get-
ting piles of damaging documents in-
volving 115 fraudulent transactions.

The confession was teased out of
Masterson Saturday night at a late
hour, and he has been locked up utterly
alone. Even sketch artists have not
been allowed to see him in his cell, al-
though promising to keep mum.

It has been arranged so that Masto-
nson has had a day or two for deep
meditation. When he says any one it
was the District Attorney.

E. J. Christie was found at the shoe
store on South Spring street, which he
and his pal, A. J. Taylor, started after
the arrest, to obtain a change of clothes
before skipping town. Deputy Sheriff Brak-
sopher placed him under arrest, and
led him away to the District Attorney's
office, and then to jail. He was trem-
bling so that he could hardly stand.

It is said that he was not the store. He was
at his home in Ocean Park. In the office
there were notified by telephone
to watch him, and Deputy Sheriff
Cleveland went down after him, bringing
him to jail during the evening.

Masterson was kept all the afternoon
in the District Attorney's office in
the office of an attorney. One hour was
held there between the District Attorney
and the corporation. The corporation
was held over to the next day.

AUTHOR EN ROUTE TO HIS NUPTIALS.

EVEN the romance of an ordinary
man has certain world-old features
of human interest, but this inter-
est is increased a thousand-fold in the
mind of an admiring public when it
has to do with the real live romance
of a man who has written his way into
the hearts of the people; a man who
is wondrously good to look upon; that
is young and yet has done things that
are worth while; who has written
books with the fire of genius displayed
in magnificent descriptions of the for-
est world, who has portrayed the
thoughts and intents of manhood has
even mirrored forth the tender mys-
tery of a woman's nature. This is true
in the case of Stewart Edward White.

Left at the White House are he goes
to Newark, the President being a
warm friend and admirer of the au-
thor of "The Blazed Trail" and having
invited him to try various riding
horses whose virtues he has been rec-
ommending to him. White by a streak
of good luck, according to his modest
way, has won the heart of the Presi-
dent Roosevelt, in a shooting affair at
Oyster Bay last spring and Roosevelt
is quite determined to make good his
reputation and win the laurels from
another trial of skill.

to his knowledge of woodcraft in gen-

THE PUBLIC SERVICE—OFFICIAL DOINGS.

SUMMARY OF THE DAY.

The Council considered a large number of minor routine questions yesterday. It was decided to appoint a Charter Revision Committee of five members.

Charges against former Chief of Police Elton are due today, but no one believed yesterday that any would be filed.

The Pasadena cemetery fight was on before the Board of Supervisors yesterday and after the board had made a personal examination a decision will be given.

Mrs. Lydia Bramley of Pasadena was before Judge Conrey yesterday seeking to recover \$25,000 in damages from the Pacific Electric Railway Company.

Guy C. Hovey began suit yesterday against John Schroeter and others for heavy damages. The defendants are alleged to have taken forcible possession of the plaintiff's photographic gallery at Long Beach.

In the Police Court yesterday the charge against P. M. Van Leuven for issuing a fictitious check was changed to forgery.

Walter A. Stattman was not prosecuted for embezzlement, it turning out that he had given a note for the shortage.

AT THE CITY HALL. QUIET SESSION OF COUNCIL.

MANY ROUTINE MATTERS WERE ACTED UPON.

Charter Revision Discussed—Oiled Roads Recommended—Six Departments Got Ries in Salary—Protect on Sunset Boulevard—Elton Charges Due Today.

Peace and tranquility marked the Council session yesterday. Early springtime indecision seemed in have attacked the City Fathers. Every petition or ordinance that might have caused animated discussion was laid on the table for one week or more. Debate on the contested sections of the new license ordinance was postponed a week, the petition of the Union Consolidated Oil Refining Company for permission to exist in the First Ward was adopted upon, and action upon other important matters was postponed.

Todd made a speech in a still small voice regarding charter amendment. He thought the city's legislative branch should be composed of an upper and a lower house. The upper house, he said, should be made up of seven members elected from the city's largest districts. The lower house, consisting of a majority from a special committee, composed of Councilman Nofziger, the City Attorney and City Engineer, recommending that amendments to the charter be prepared providing for an independent Board of Public Works, the consolidation of the city and county offices.

The Council voted to appoint a Charter Revision Committee of five members, of which the president of the council was one. President Brown will name the other four members at the next meeting.

It was voted to purchase an oil-sprinkling wagon of the Glover type and a "sander" at an estimated cost of \$1,000 after Nofziger had called his home to the virtues of good oil roads. Nofziger said that the oil sprinkling of the streets had not been handled in a businesslike way, and that the city should do the work through the street department. He said the Chamber of Commerce had asked him to tell the Council should not spare money to the detriment of the streets. He described the magnificent roads of San Bernardino, which, he said, were kept up by two applications of oil and sand every year. The Supply Committee was present.

The new license ordinance was adopted with the exception of the provisions relating to billboards, bucket shops and lodgings houses, upon which action was postponed one week. Pasadena voted again that the ordinance because the weight real estate agents should pay a license if fire and life insurance agents were taxed.

Hereafter it will be necessary to secure a permit from the Street Superintendent to remove trees or shrubs from the streets. The Council directed the City Attorney to prepare an ordinance making it unlawful to so remove trees or shrubs without a permit.

Another application for a franchise on Lamar street was referred to the Board of Public Works. Property owner of that section wish to Los Angeles Railway to build a line to Southern Pacific shop. The new route commences at Alhambra avenue and Lamar street, covers Lamar to Main street, Main to street, over No. 1 Avenue to Pasadena, and from Pasadena avenue to Avenue 24, Avenue 26 to Griffin avenue and on Griffin to its terminus.

The much-discussed smoke ordinance, prohibiting the burning of peat-smoke in such manner as to cause smoke, was adopted.

An amendment to the ordinance establishing a district within which slaughter-houses may be constructed was adopted. The amendment adds to the district that portion of the so-called industrial section of the city bounded by Ninth Street, Second Street, Avenue 24, Avenue 26, Avenue 28 and Lemon street. Julius Hauer is planning to erect a packing-house somewhat like the Cudahy establishment somewhere in this district.

Reese L. Ladd, who has property in the area, in the affected portion of the city, advocated the amendment.

Thirty additional teams for street-sprinkling purposes were authorized by the Council.

At the request of Dr. F. M. Potter, head of the Southern California Anti-Tuberculosis League, the Council agreed to purchase for free distribution in the schools 30,000 copies of circular No. 1 and 15,000 copies of pamphlet No. 1 issued by the league and dealing with the subject of tuberculosis and interior organs, and these were yesterday ordered committed to the agent of the State Board of Health.

Commissioner Clark Goodwin presented to the Council yesterday a very long schedule of prices of articles used by the city. The prices were obtained by competitive bidding, and will be used in connection with the new purchasing system under which all merchandise received a sealed bid for every item.

A protest against the acceptance, conditionally or otherwise, of the improvement of Sunset boulevard from Douglas street to Mainland avenue, until such time as Contractor Charles E. Mathis had filed with the Council, was filed with the Council yesterday.

It was stated that this protest was purely a technical one, and that it would not be pressed if the contractor

finished the work according to specifications. The improvement will cost over \$10,000, and the Sunset Boulevard Improvement Association proposes to insure good work on the part of the contractor.

The building of Pasadena avenue cost the city \$125,000, which was not signed in the estimates. The change of grade caused serious damage to lot 9 of the Chautauqua tract just beyond Sycamore Grove, and a demand for \$125,000 was placed yesterday in the amount of salary by the Council yesterday. Minute Clerk Wilde was given a rise from \$135 to \$150 a month. In the City Attorney's Office Deputy H. J. Goudge was raised from \$175 to \$200 a month, and District Lawyer, George L. and Harry Shaw from \$140 to \$150 a month each. In the street department Assessment Clerk Palomares was given a rise from \$125 to \$150, and Col. W. G. Schreiber, in charge of engineering and public works, from \$125 to \$150 a month. Davenport tried to have the salary of Roy McKeon, chief deputy in the street department, raised from \$150 to \$155. Summerland supported the motion, but the other members of the Council insisted that the recommendation should be carried in regular way through the Finance Committee. The City Attorney was instructed, however, to prepare the necessary ordinance, and this will be due time referred to the Finance Committee for report.

To Councilman McAleer and City Attorney Mathews was referred a bill from the county of \$44,526 for repairs alleged to have been made to the Garvanza bridge in December, 1922. None of the members of the present Council knew anything about the work, and it is not probable that the demand will be paid.

Yesterday when Judge Wilbur asked her why it was that she jumped out of the window she said that it was because she was crazy. Then she went on to say that she was having the idea that someone was intending to do her harm, and her husband testified that she passed most of her time walking up and down the room wringing her hands and moaning: "I'm going to be strong." After being questioned she cried out, "Oh, dear! oh, dear!"

It was shown that ten years ago Mrs. Johnston made her first attempt at suicide, and for some time past has suffered from melancholia. She determined was she to end her life that morning, discovering that her feet were not tied. The rest of her feet were not broken, and she was hardly jarred, and that was all.

Old and simple-minded as Mrs. Johnston appeared she was a rigid determination to commit suicide and possessed such an ingenious twist of mind that she was committed to Highland as a pay patient.

ELTON CHARGES.
NO ONE BEEN FILED.

This morning the Police Commission is prepared to receive charges against former Chief of Police Elton. If any charges are filed a hearing will be held next Tuesday, and the former Chief will be given a chance to secure a personal vindication.

No one could be found yesterday who believed that any charges would be filed. Chief Elton says he sees no use in threshing over old straw, now that he is down and out of the department.

It was the understanding last week that some member of the Police Commission would support the charges against Elton. None of the Police Commissioners who could be reached yesterday knew of the preparation of any such charges and none were filed with the clerk up to 9 o'clock last night.

Mayor Snyder said he knew of no Commissioner who would support Elton. Commissioner Keeney had no knowledge that charges were to be presented today. Neither had Commissioner Lewis Commissioner Rule was in the northern part of the State, and Commissioner Lane could not be located.

Chief Elton said the former chief may file this morning, but it is not probable. It is far more likely that the Commissioners and the Chief have agreed to drop the investigation and let the dead past bury its dead.

GYC. HOVEY, OF LONG BEACH CLAIMS HEAVY DAMAGES.

Suit Leveled Against Katie and John Schroeter, and is a Judge Conrey's court trying to prove that they are entitled to recover from the Pacific Electric Railway Company the sum of \$30,000 for their damages, and \$500 for money alleged to have been expended on Christmas fees.

To these objections Mr. Giddings replied that there are about twenty impervious strata existing before the water-bearing strata is reached, and he argued that it would be impossible for the water to find its natural outlet to be contaminated. He touched lightly upon the other objections raised, and generally contended that the residents in the district were opposed to the project because he opposed them in their scheme for incorporation, and won't water and to tap the lines to furnish it on his other lot.

COURTHOUSE NOTES.
BREVITIES MISCELLANEOUS.

HE CHEWED GUM.—Alfonso Alvarez was before Judge Smith yesterday to be arraigned on the charge of grand larceny. The defendant is a big, hulking fellow and swaggered into court chewing gum on a "wad" that bulged out one cheek. Being apparently a rough-spun fellow it was surmised that he was busy with a chunk of tobacco but the court diagnosed the situation and told the man to take the gum from his mouth so as to settle down to business. Alvarez had the accentuated jawbone of the regular gum-finish.

CHANGE OF NAME.—The American Bank of Los Angeles wants to change its name. It incorporated in January, 1898, under the name of First National Bank of Mouris, and in 1909 changed to the name under which it is now doing business. A petition has been filed asking that the bank be again allowed to change its name to the Citizens' Savings Bank of San Diego, as it is proposed to remove the name of Mouris.

DIVORCES GRANTED.—Ada G. Howell was granted a decree by Judge Tracy yesterday divorcing her from Frederick W. Howell, of the firm of Howell & Patterson, on the ground of adultery. In Judge Tracy's department Martha A. Clearwater was divorced from Daniel Patterson, on the ground of cruelty.

UNION LEAGUE.—The Union League Association has incorporated with a capital stock of \$100,000, of which amount \$275 has been subscribed. The directors are: R. D. Ward, A. J. Crookshank, C. S. Hogan, S. Pease, R. J. Waters, C. H. Sessions, G. L. Curran, Thomas Morris, and George H. H. Lee. Los Angeles; A. T. Custer, Spada, and R. W. Pridham, South Pasadena.

QUAKERS PROTEST.—A protest was received by the Supervisor yesterday against the board granting a license to the winery here Santa Fe Springs, in the East Whittier precinct. The protest was from the Quaker church at Whittier, but under the ordinance there was no alternative but to grant the license.

A SOLITARY DUCK.
COST TWENTY-FIVE DOLLARS.

LEAVE OF ABSENCE.—The Supervisor yesterday granted leave of absence on full pay to County Health Officer Dr. E. N. Morris for the time he may be absent from the county Municipal Health Convention that will meet at Pasadena, on April 18. It is possible, however, that Dr. Morris may not be able to make arrangements to grant the license.

WANTED TO DIE.
MRS. JOHNSTON'S ONE DESIRE.

Mrs. Annie Johnston was before the

doctors yesterday for the purpose of determining her sanity or insanity. She is over 60 years of age, with an apparently clear mind—to judge from her talk—but with a decided penchant for suicide.

On March 5 this little bit of a woman, kindly-faced and softly spoken, started out to make away with herself. She went to a drug store and on some pretext obtained a bottle of chloroform, and the night went to bed never to rise again—as she supposed. But Mrs. Johnston's simple life had not taught her how to take the anesthesia, and so she merely poured the fluid over the pillow of her bed and laid down to sleep. The drug took effect quickly, and the next morning she was found dead.

When she awakened in the morning she was disappointed. According to her mode of reasoning she ought to be dead, and she was unable to understand what she was doing.

She opened the window of her bedroom and jumped out, falling onto the cement pavement, eighteen feet below. But Mrs. Johnston was not killed. The rest of her feet were not broken, and she awoke.

This is the Day

April 12th

Train starts from Arcade Depot at 11:30 a.m. Today for Imperial Valley. Round trip tickets \$10, including three nights' accommodation in sleeping car. Train will be accompanied by a first-class dining car—meals à la carte.

Everyone will get the price of his ticket credited on sale if he only purchases a \$25 lot at IMPERIAL, during the big auction sale which will take place Wednesday and Thursday of this week.

"So the People May Know."

Let it be known of all men that not one syllable, word or sentence has been published in regard to the Excursion to Imperial Valley or of the town of IMPERIAL, of a "boom" nature or character. The list price of lots varies from \$25 to \$500 each. Mr. L. W. Gleason, of Riverside, purchased a lot a short time ago for \$100 and recently refused \$1000 in cash for said lot.

Moreover, our firm is not a "town making machine." Making towns while you wait—notwithstanding any slanderous statements to the contrary—is not our specialty, but we are carrying a great work forward which the presence of 9000 sturdy, bona fide settlers—American citizens and home builders in the Imperial Valley—demand.

There is not another town in California where there is such a wealth of agricultural land surrounding it, that town property is not five to ten times higher than in the town of Imperial today, and it is not improbable to believe that town lots at IMPERIAL which will be sold at the coming auction for \$25, \$50 and \$100 each, will, within five years, bring the owners from \$500 to \$5,000 for each lot. This statement is conservative. A word to the wise is sufficient." All are invited to join us on the special train which leaves the Arcade depot today at 11:30 a.m. Many ladies, as well as gentlemen, have already arranged to accompany this special train.

Respectfully,

The Emerson Realty Company

132 S. Broadway, New Chamber of Commerce

TUESDAY, APRIL 12

EVENTS IN LOCAL SOCIETY.

YESTERDAY afternoon the Catalina Card Club was entertained at the home of Mrs. W. S. Allen of Hill and Seventeenth streets. The house was made beautiful with violets and fleur-de-lis. Violets formed a centerpiece on the dining-room table and loose clusters of flowers were arranged about the room, while here and there delicate strands of asparagus piemontaise strayed over the snowy whiteness of the curtains. After the game was finished, dainty refreshments were served, carrying out the lavender idea, and a handsomely decorated china plate was awarded the fortunate contestant. The guests present were: Mrs. Charles A. Jung, Mrs. Pauline Mrs. Gavan, Mrs. E. L. Hooper, Mrs. F. Hudson, Mrs. Gilligan, Mrs. A. J. Capp, Mrs. Bloser, Mrs. Jung, William Cline, Mrs. Buell, Mrs. Jung, William McCaffery, Mrs. Rossiter, Mrs. Ed-

ward. Handsome Present for Couple. A pretty wedding was that of Miss Anna Bush, daughter of Mr. and Mrs. R. E. Hewitt, and Merritt Lloyd Bailey, son of Mr. and Mrs. L. J. Bailey, which took place at the bride's home, No. 327 South Olive street, yesterday at 3 p.m. Rev. Chapman of the First Side Presbyterian Church officiated. The ceremony was performed beneath a canopy of smilax and orange blossoms, surrounded by drooping ferns and banks of callas. The spacious parlors were decorated in green and white. The bridal party were led to the altar by Mrs. Mary Horace Hewitt, stepmother of the bride, and Master Merle Bailey, brother to the groom, who carried dainty baskets of white rose petals, and scattered them along the pathway to the altar.

The wedding march was played by Miss Ethel Inley. The bride was dressed in a dainty white organdie, tucked and trimmed in white ribbon, over a lining of white silk. She carried a bouquet of white carnations, and a small basket of orange blossoms. After the ceremony, the party repaired to a handsomely decorated dining-room, where dainty refreshments were served.

The bridal couple were recipients of many handsome presents, among them a check for \$100 from Hon. Noah Palmer of Santa Ana, grandfather of the bride.

Mr. and Mrs. Bailey will spend their honeymoon at Yosemite Valley, and will be at home at No. 1651 Horton street, after August 15.

Aftersong Musicals.

Mrs. Minerva T. Russell entertained at the Ashley, No. 44 South Grand avenue, a party of about forty ladies on Thursday evening, at 8 o'clock, with a musical in honor of Mrs. Charles McEnter of Chicago and Mrs. William Bellman of Toledo, Ohio.

Miss Gertrude Ross Harris, Mrs. Willard, Mrs. Alice, Mrs. Mae Russell and Mrs. Frank Cook contributed to the programme, and after the music refreshments were served.

Wedding at High Noon.

At high noon on Saturday, Miss Isabell Morell of Grand Rapids, Mich., was married to Mr. Floyd E. Green, an attorney. The wedding took place at the home of the groom's parents, Mr. and Mrs. E. K. Green, of West Eighth street. Only intimate friends of the family were present. The bride wore a gown of shiny white organdie, with a long train, and a bower of smilax and Easter lilies.

The groom is a popular member of the "Boys" class. The ceremony was performed by an old friend of the family, Rev. Dr. Root of Illinois. Rev. Roscoe Cook, for four years the pastor of Mr. and Mrs. Green's church in Illinois. The young couple have gone to Santa Barbara for a few weeks, after which they will proceed to their new home in Imperial, Cal.

Twelve Bachelors.

The Twelve Bachelors Club was entertained on Friday evening by Roscoe Melrose at his home, No. 441 Alpine street. Whist was the order of the evening, and at the conclusion of the games refreshments were served.

The room was brightened with cut flowers and ferns and potted plants added a touch of cool green.

For Miss Brotherton.

Last evening Mrs. L. N. Van Nuys entertained for Miss Myrtle Brotherton, who is to become the bride of Theodore Criley on the first of May. This year April 12, Miss Brotherton has been one of our most popular brides-to-be, and has had a great number of delightful functions given in her honor. The affair last evening was a success, and the bride-like simplicity was carried out in the formal arrangement, and potted palms and plants. The guests on this occasion were the members of Miss Brotherton's bridal party and a few friends.

Poinsettia Whist Club.

A day or two ago Mrs. L. Barman of No. 882 West Washington street entertained the members of the Poinsettia Whist Club. Easter lilies, roses and smilax formed attractive decorations in the house, and scores were kept with candies in tiny silk bags of white and green. After the cards were dealt, the room was set up for the dinner, which was especially prepared and inviting, with white and green ribbons brought from the corners of the table to the chandeliers and a cluster of Easter lilies formed a beau-

tiful arrangement.

Mr. Buffinch and Jessup have been dragging on the heels of each other, keeping the time minister off for further consideration until the other seven got their heads together and made up the resolution as offered by Horgan, and last night sprung it without the previous knowledge of the two objectors.

BUFFINCH HOT.

Buffinch was red hot in a second. He denounced the whole scheme as unworthy and unjust. "It is being run through here tonight hastily," he declared; "more like a graft than anything else, and I wish to voice my objection."

Mr. Buffinch then went into a long series of comparisons with other cities to show that Los Angeles paid as good salaries as any of them, and he declared that the school board was facing a crisis and would be compelled to make a change July 1 if it had not for four years. He said a whole lot of other things which he would rather not see in print, but was given full rein.

Mr. Monroe was the principal champion of the resolution as offered, and he did just as well as that the salaried matter had been taking shape in the committee-room for several months.

Superintendent Foskay was referred to by the latter as probably being opposed to the increase, and he said he did not know what attitude the superintendent had taken.

Superintendent Foskay was referred to by the latter as probably being opposed to the increase, and he said he did not know what attitude the superintendent had taken.

Mr. Buffinch and Jessup recommended to vote no, and the unionists would oppose it because of its being rushed through with undue haste.

It finally came to a vote and was adopted by a vote of seven ayes and two noes—Buffinch and Jessup voting in the negative. In detail, the vote seems to indicate a majority of 40 to 30 for the year for the employees affected, but the aggregate foots up \$15,850 a year.

A resolution was also adopted and referred to the committee of the whole recommending the sale of a portion of the 500-acre site in order to aid in the erection of buildings in other portions of the city.

It seemed to be the almost unanimous opinion of the board that the property should be leased in preference to selling it, but in order to discuss the resolution as offered by Mr. Buffinch, it was voted that an offer of \$20,000 per year had been made by one party for a five-year lease, the building to become the property of the city at the end of forty years. Another party offers \$27,000 a year for a ten-year lease, and the third party offers \$25,000 at the expiration of the term in case a renewal is refused.

CENSUS ENUMERATORS.

The following persons were last night appointed to take the school census:

MRS. CLOUD SHULER.
(Photo by Curtis.)

Mrs. Mrs. Sheedy, Mrs. Stewart, Mrs. Vigna, Mrs. Wattington, Mrs. Wilson, and the Misses Marie Gavan, Miss Mac Penrite, Miss Irene Bush and Blanche Allen.

Matinee Party.

Mrs. Andrew Glassell entertained a bevy of the most charming of the coming buds on Saturday afternoon at "The House That Jack Built" after the performance. Luncheon was served at Christopher's, where the table was a mass of dainty peach blossoms and ferns, and places were marked with cards appropriately graced with Mother Goose characters. Those who composed the party were: Misses Flossie Rowan, Gertrude King, Anita Patton, Addie Brown, Lucie Brown, Eleanor Brown, Minnie Dunn, Lettie Brown, Lois Allen and Andrietta Glassell.

Ninth Anniversary.

The managers of the King's Daughters' Day Nursery will celebrate their ninth anniversary with a social and reception at the nursery, No. 302 Alameda street, on Friday evening. The Orpheum Orchestra will furnish music. The ladies having the affair in charge are Mrs. Frank Standard and Mrs. Vance.

Leap-Year Party.

The leap-year party to be given at the Country Club tonight is causing considerable anxiety among certain susceptible bachelor's hearts, for how shall they know who is who, of the bevy of fair maidens to robe themselves in dominies for the affair? At the same time, however, they are at the head are Miss Eva Prentiss, Miss Lucile Levy, Miss Constance Carvel and Miss Katherine Ridgeway.

Neon Luncheon.

Mrs. H. J. Woolacoat of No. 1001 Broadway Avenue, the hostess yesterday at luncheon given in honor of Miss Zora Weaver, Scarlet roses formed an attractive centerpiece, and about the room tall vases filled with roses added a touch of grace. The white Coves and Ibis for Miss Maybelle Rendall, Miss Denker, Miss Hildred Mairi, Miss Jessie Bryant, Miss Mabel Pack, Miss Ruth Orr, Miss Alice Hause, Miss Helen Kibbe, Miss Mabel Rivers, Davies, Miss Bertha Ducommun, Miss May Gandal and Miss Helen Roth.

Alexander-Shuler.

Last evening at the home of the bride's mother, Mrs. R. G. Alexander, No. 1000 West Ninth street, Miss Martha Alexander became the wife of Roy Shuler. The menu was especially planned. A small canopy of drooping pepper branches and white jasmine, with a wedding bell of snowy roses suspended directly over their heads. Rev. J. L. Pittner officiated, and Mabel Denker, Misses W. C. and W. D. were present during the service by Miss Lucy Craig. In front parlor, in which the ceremony took place, was indeed a beauteous spot, with white roses and calls filled banks above the fireplace, and in every corner concentrically arranged. Peppermint leaves and roses were festooned in strings from corner to corner of the room, and in the back parlor, beneath a pleasing arrangement of scarlet carnations and white lilies. Little girls in light gowns, Kibbe, Hause, and Roth, and their husband is well known in the local commercial world. The happy couple left by train for the north on their honeymoon, and will be at home to their friends after May 15, at No. 921 Albany street.

Pretty Sunday Wedding.

It was a very pretty wedding that took place Sunday afternoon at the home of the uncle and aunt of the bride, Mr. and Mrs. E. W. Carpenter, No. 1317 Maple avenue, when Miss Leonore M. Hague was united in marriage to William W. Best. The bride wore a gown of white organdie made on the train, and carried white carnations. Her maid of honor, Miss Delta A. Doner, was dressed in white and pink carnations. The room was attire of his brother, Fred Best, Brazil. After the ceremony, which was performed by Rev. Best, the guests were served with refreshments. The happy pair will spend the honeymoon at Santa Ana and will be at

CURES WHILE YOU SLEEP.

Guaranteed to Cure Catarrh or Sinus Refracted to Death.

It is the most economical of all remedies for the cure of catarrh, and the only one that follows a natural method in treating diseases of the respiratory organs. Physicians advise a change of climate for the cure of catarrh. With Hyomei, a change of climate is gained while at home. Its healing balms impregnate the air you breathe, and their health-giving and germ-destroying powers go to the most remote air cells of the respiratory organs.

You take no risk in buying Hyomei. Dean has no much confidence in its power to kill catarrh, grippe, and catarrhal colds, that they sell it under their personal guarantee to refund the money if it fails to cure.

RISE GIVEN
TO TEACHERS.

*Is Fifteen Thousand a Year
All Summed up.*

*School Board Had Program-
me Cut and Dried.*

*Measure Adopted With But
Two Dissenting Votes.*

The eminently proper and omnious harmonious Board of Education came very near getting into an old-time mix-up last night.

The very first act the board did was such a graceful one that it is easy to overlook any little misunderstanding that may have occurred later on. Prof. W. H. Housh, principal of the High School, is seriously ill at a hospital and the act referred to was in granting to him, on motion of Mr. Bulfinch, leave of absence at his full salary, from March 1 to April 1, in order that he may have an opportunity to recuperate should he be so fortunate as to get out of the hospital as speedily as is hoped he may.

The hot stuff came preceding the adoption of an increase of salary for teachers for the year beginning July 1. The motion came upon petition from the Schoolmaster's Club, and was brought to the direct attention of the board by the following resolution, offered by Mr. Horgan:

THE SCHEDULE.

"Resolved, that the following schedule of salaries be adopted for teachers of primary or grammar grades or Sloyd and cookery, for the year 1904-5: Less than one year's experience, \$60 per month; one year and less than two years, \$65; two years and less than three years, \$68; three years and less than four years, \$72; four years and less than five years, \$75, which shall be the maximum for teachers of second and third grades; five years and over, for the other grade teachers, \$80 per month. Substitute primary and Sloyd salaries for the time actually taught. \$5 per day; half-day teachers on the regular list, \$4 per day per person; \$5 per day for substitute principals per month; assistants, \$40. Teachers of ungraded rooms, \$60 per month."

It soon developed that the subject of an increase in the salaries has been under contemplation by members of the board for almost a year and they had been unable to agree upon a reasonable sum for the past three or four months, with the object of coming before the public in the most symmetrical harmony of action.

But Buffinch and Jessup have been dragging on the heels of each other, keeping the time minister off for further consideration until the other seven got their heads together and made up the resolution as offered by Horgan, and last night sprung it without the previous knowledge of the two objectors.

BUFFINCH HOT.

Buffinch was red hot in a second. He denounced the whole scheme as unworthy and unjust. "It is being run through here tonight hastily," he declared; "more like a graft than anything else, and I wish to voice my objection."

Mr. Buffinch then went into a long series of comparisons with other cities to show that Los Angeles paid as good salaries as any of them, and he declared that the school board was facing a crisis and would be compelled to make a change July 1 if it had not for four years. He said a whole lot of other things which he would rather not see in print, but was given full rein.

Mr. Monroe was the principal champion of the resolution as offered, and he did not know what attitude the superintendent had taken.

Superintendent Foskay was referred to by the latter as probably being opposed to the increase, and he said he did not know what attitude the superintendent had taken.

Mr. Buffinch and Jessup recommended to vote no, and the unionists would oppose it because of its being rushed through with undue haste.

It finally came to a vote and was adopted by a vote of seven ayes and two noes—Buffinch and Jessup voting in the negative.

In detail, the vote seems to indicate a majority of 40 to 30 for the year for the employees affected, but the aggregate foots up \$15,850 a year.

A resolution was also adopted and referred to the committee of the whole recommending the sale of a portion of the 500-acre site in order to aid in the erection of buildings in other portions of the city.

It seemed to be the almost unanimous opinion of the board that the property should be leased in preference to selling it, but in order to discuss the resolution as offered by Mr. Buffinch, it was voted that an offer of \$20,000 per year had been made by one party for a five-year lease, the building to become the property of the city at the end of forty years. Another party offers \$27,000 a year for a ten-year lease, and the third party offers \$25,000 at the expiration of the term in case a renewal is refused.

**City Council Passes up the Matter
of Licensing Shops—Reformers
Say the Business is Unlawful and
Reformers Are After Proprietors'
Scalps—How Trades Are Made.**

The clause in the license ordinance relating to bucket shops was stricken out yesterday before the ordinance came up in the Council meeting, and the question of licensing bucket shops was referred to the Finance Committee to be reported on at the next Council meeting.

This action upon the part of the Council was regarded by the bucket-shop men as the beginning of a war upon them and their business, for they understand that the next municipal reform movement is to be in their direction. Just who is back of the attack on the bucket-shop people does not appear, but the City Attorney has been said to take the matter up, and he is investigating the subject thoroughly. At present the bucket-shop men do not pay a license of any kind, and it has been suggested that a fee of \$25 per month shall be charged, but the striking out of this clause has brought matters to a standstill.

The war-like feeling of apparent un-siness in the shops throughout the city yesterday. One proprietor said that if a broker's license of \$25 per month was charged, the shops would willingly pay the amount, but if the license were for anything else, then for a brokerage business, the law would be contested. Bucket shops are said to be unlawful in the State of California, but so far the law has proven a dead letter in this city. In many cities in the East crusades have been started against bucket shops and in some instances there have been completely wiped out of existence.

There are only three full-fledged bucket shops in Los Angeles, but there are seven branch institutions.

The shops do business on one point margin, and the result is that no item of stock can be purchased or sold for \$10. The commission both ways is one-quarter, so that with a one-point margin a customer is wiped out when the fluctuation in three-quarters of a point against him. The claims of the reformers are that the shops are paid off by young men who work for small salaries and who gamble away their money. The bucket-shop men take trades as small as \$5.

**WOMEN'S
CLUBS.**

Thoughts of fairies and elves, nymphs and nymphae, and all the sweet suggestions of leafy woods and booky dells and of flower-dotted meadows and fields were expressed yesterday afternoon at the Ebell Club in a perfect riot of melody and song of the outdoor world.

"Fairytale," a song cycle by R. Orlando Morgan, was given for the second time in this country by a quartette composed of Miss Jessie Winston, Mrs. Spencer Robinson, Harry Clifford Lott and Jackson Gregg, with a rippling, sparkling piano accompaniment by Miss Mary L. O'Donnough.

There was a dainty group of four songs which preceded the regular programs, given in case of the quartette's chance to appear in some characteristic bit of melody. "April Rain" was given by Miss Winston, and one heard the raindrops falling and patterning. A beautiful rendition of Mackenzie's "Spring Song" by Mr. Lott, brought a great burst of the spring. The full, rich voices of Mrs. Robinson and Gregg in "A Fairy Love Song" and one believed in fairies straightaway. Mr. Gregg's sparkling, clever interpretation of "Meadow Talk" was enthusiastically cheered. "In Fairytale," which is an adaptation of dear old "The Wizard of Oz," was the last number in the world, for its opening piece the familiar songs of Flick, beginning:

"Over hill, over dale,
Through bush, through briar,
Over park, over path,
Through fire,
I'd wonder everywhere."

Surprise than the moon's sphere!"

This was sung by Mr. Lott.

The delighted audience was loath to have the music cease.

Hunt, after thanking the singers and the accompanist, and paying a tribute to Mrs. Roy Jones, Vassar, who had entertained the afternoon for the club indicated in quite a little bit of oratory by referring to the children in the old fairy tale whose lips diamonds and pearls were wont to fall, and said that if the members of the Ebell had caught the Jews of sem that had dropped from the lips of the singers, they were rich indeed.

Mrs. Sumner P. Hunt, after thanking the singers and the accompanist, and paying a tribute to Mrs. Roy Jones, Vassar, who had entertained the afternoon for the club indicated in quite a little bit of oratory by referring to the children in the old fairy tale whose lips diamonds and pearls were wont to fall, and said that if the members of the Ebell had caught the Jews of sem that had dropped from the lips of the singers, they were rich indeed.

Friday Morning Club Tea.

This afternoon the tea given at the

delightful audience was loath to have the music cease.
